### **Report on Industrial Visit**

Industrial visit is an important pedagogy of bridging the gap between classroom learning and practical application of any subject. An Industrial visit was arranged by Department of UG Studies for a batch of 60 students of I, II and III year BBA to Karnataka State Beverages Corporation Ltd and NSL Sugars Koppa on 1st October 2018 accompanied by two staff members Dr. Shankar.R HOD of PG Studies and Prof. Pavithra .S Dept of Commerce and Management.

At 10:30 am students arrived at NSL Sugars and we were well received by the HR manager of the unit. The Students were directly permitted to have a complete view and understanding of the conversion process of sugarcane into sugar at the production unit. Further he gave an overview of various production lines, departments which are manufactured at the plant. During the visit to different processes students had queries and these were well clarified by the manager.

Later at 12:30 students were taken to Karnataka State Beverages Corporation Ltd and after security check they were allowed to walk through various processes and departments of the Beverage Making unit. Students were given a clear understanding of the process right from adding sugars, flavors, soda and water in creating tasty balanced refreshing soft drinks .
